

#### 4...3...2...1—GET TESTED!

Syphilis rates are on the rise in DC! DC's HIV rates are still the highest in the nation! (Syphilis is a sexually transmitted infection that can cause serious organ damage or death if untreated. Syphilis is curable.)

April is STD (Sexually Transmitted Disease) Awareness Month and we're making it easy to take control of your sexual health with fifteen hours of free, confidential HIV and syphilis testing throughout DC, Prince George's and Arlington counties! On April 3, 2009, get tested for free at the following sites:
